

How to login and play HelpKidzLearn Games and Activities:

1. Go to www.helpkidzlearn.com and click on the Games and Activities box.

2. Click the green login button.

3. Enter the username and password access details. (This is the one that is NOT an email address. The email address is used by the administrator to manage the subscription; the non email address is used to login to Chooselt Maker to play, create, and organize activities).

Games & Activities (continued):

4. Games & Activities are organized into 5 categories. Click one of the category tabs at the top of the page to see a list of the Games and Activities in that section.

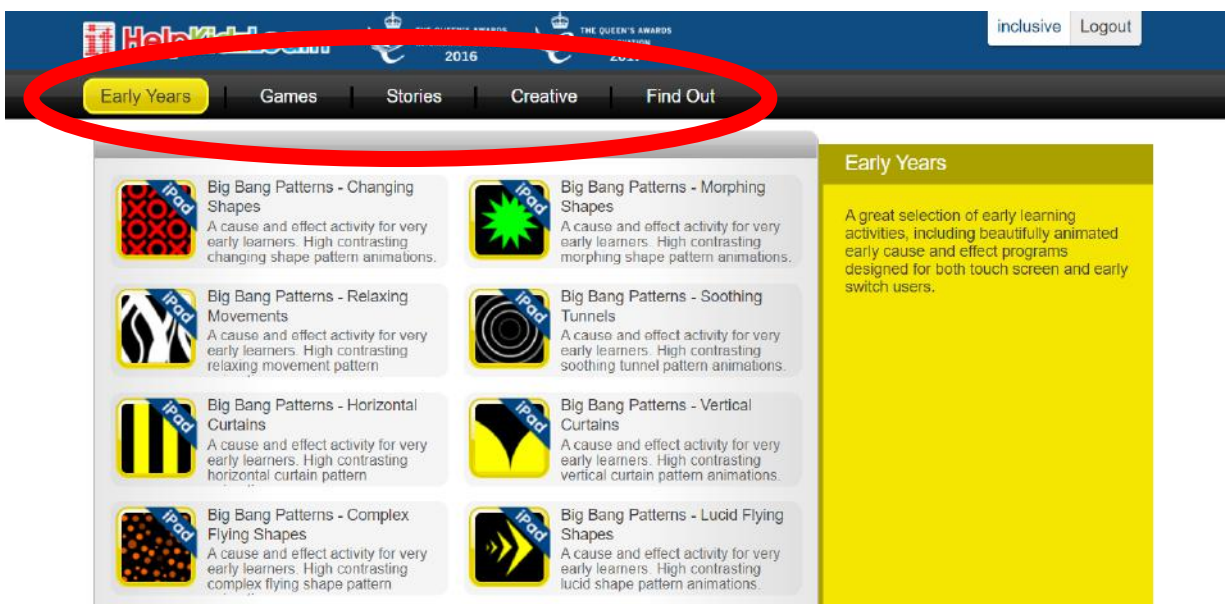

Early Years: Highly motivating activities to get students interacting with early learning concepts such as cause and effect and timing skills

Games: Game-style activities to develop various skills through fun, lighthearted play

Stories: Activities that follow a step by step format for students to follow along. A collection of social stories and counting songs

Creative: Activities that give your students the opportunity to freely explore their creativity

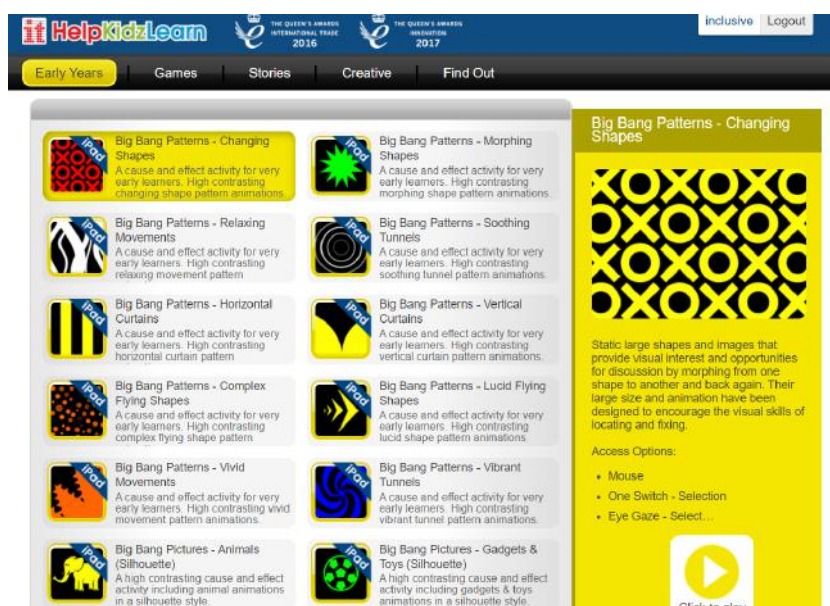

Find Out: Explore different environments and scenes, making errored and errorless choices

Games & Activities (continued):

6. In each of the five sections, the Games & Activities are shown in a list with an image, title, and brief description. When you click on an activity more information about it is displayed in the yellow box on the right of the page, including a full description and the different access options. To play an activity, click the “Click to play” button in the yellow box.

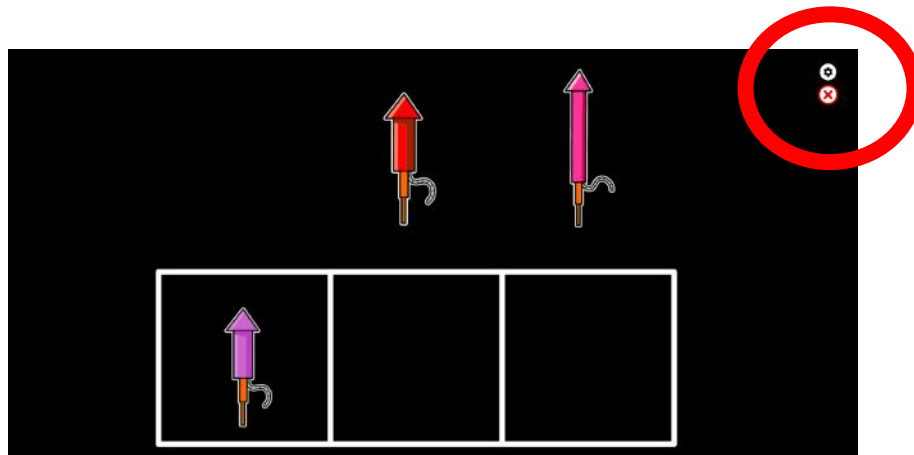

7. You will then be prompted to choose your access settings. Select the access method your student is using, then click the green play button in the upper left corner to start the activity. The arrows to the right will take you to more options to customize access settings. We recommend discussing your student's individual needs with their teacher. For switch access, program your switch to send “space” and “enter” commands.
